

Nexamp Community Solar: *Solarize My Bill*

Becket Energy Committee

Becket, MA

nexamp

> Hampshire Solar Introduction

- Hampshire Solar connects towns with solar projects built for MA residents, businesses and munis
- **Hampshire Solar is program of HCG**, a community driven organization with fee for service programs that support community programs
- There are other programs we have such as Hampshire Power, the only Massachusetts based energy supplier
- Hampshire Cow Power & Hampshire Wind

HCG

> Nexamp Introduction

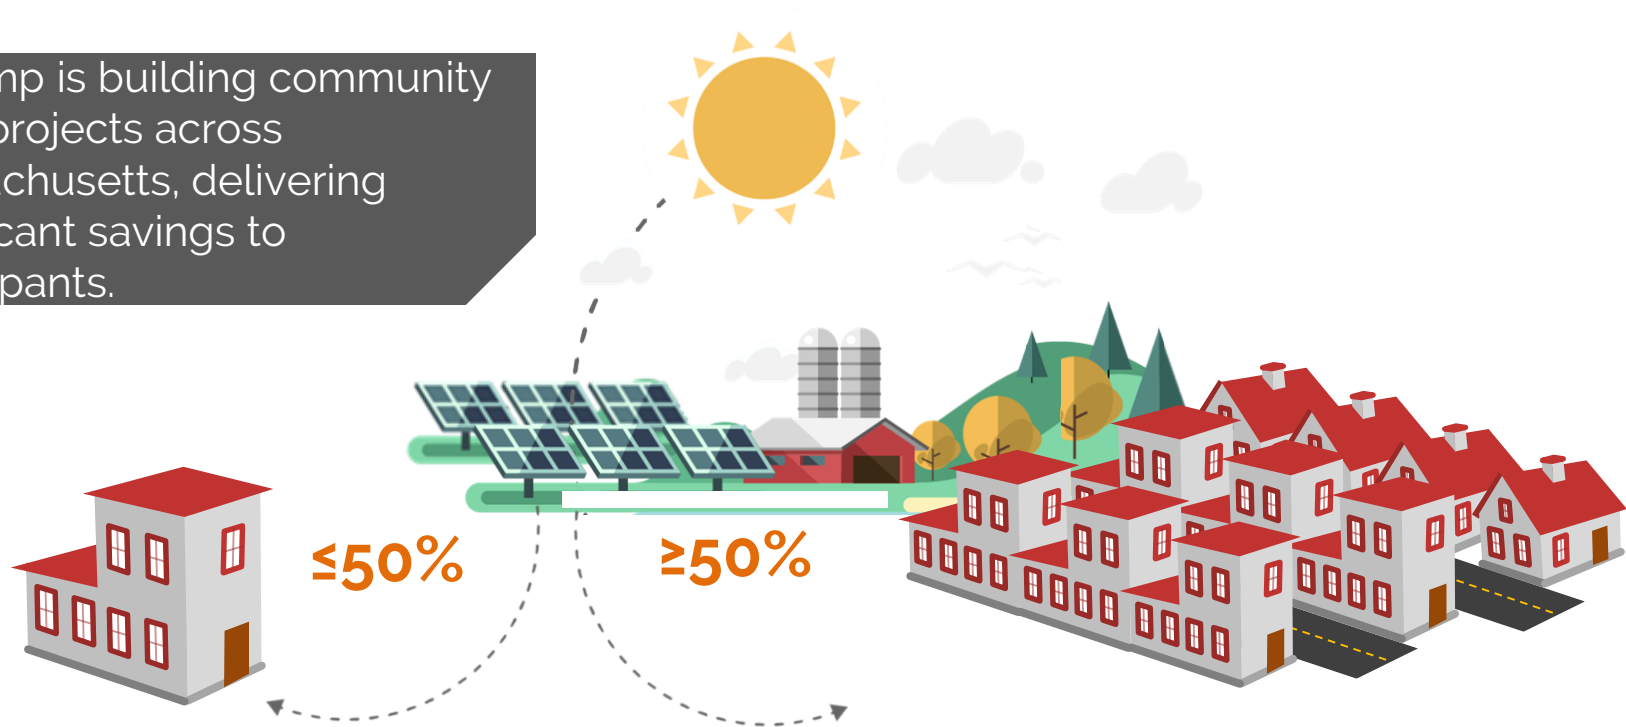

- **Veteran-founded, locally owned and operated solar provider** working with partners throughout New England
- Work with municipalities, small businesses, Fortune 500 companies, institutions and governments to make solar easy and rewarding
- Build, own and operate **hundreds of solar projects** with over **50 MW** currently operating across the Northeast, 50 more MW currently under construction
- Ranked **No.1 Massachusetts Solar Contractor** by *Solar Power World* two years in a row
- Named **Clean Energy Company of the Year** by the NECEC (2015)

How Community Solar Works

> Community Solar: Participants

Nexamp is building community solar projects across Massachusetts, delivering significant savings to participants.

Up to **50%** of the solar project can be allocated to no more than 2 **Anchor Tenant(s)**: non profit, non-taxable public, or commercial

The remainder of the project goes to **Community Solar customers**: residential, non-profits and small businesses

> Community Solar: Net Metering Credits

1
Nexamp Community Solar projects generate clean, renewable electricity that feeds into the utility grid.

2
Through net metering, the value of that electricity can be shared with participating utility customers.

3
Each month, participants receive credit for their share of the project directly on their utility bill.
It's that easy!

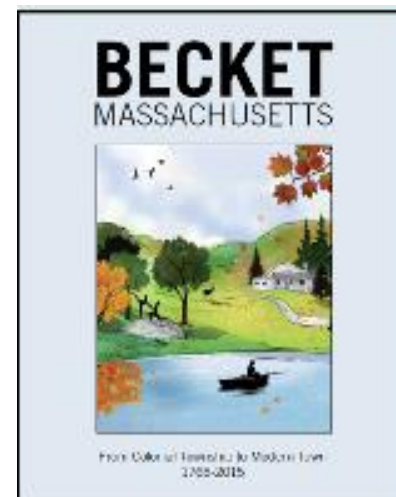

*Municipal Light Co. territory excluded

Solarize My Bill

> Solarize My Bill: Town of Becket

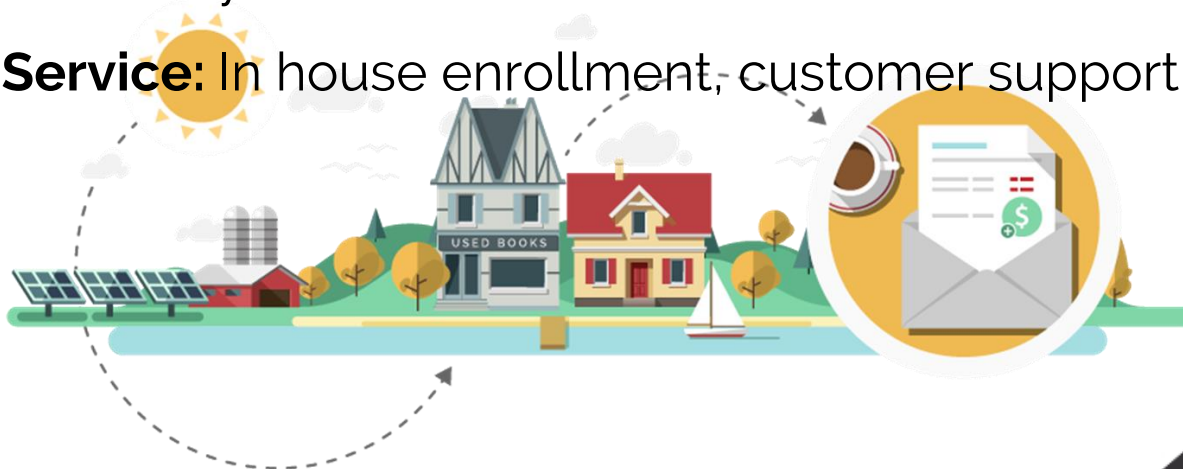

Bringing the Community Together!

- Solar savings will lower living expenses for Becket residents, non profits, and small businesses
- Bolster the town's commitment to sustainability and environmental stewardship by supporting local, clean energy
- Build community ties through communal participation and engagement in this green initiative
