

SECTION 5.0 GENERAL REGULATIONS

5.1 SIGN REGULATIONS

5.1.1 Purpose and Applicability. All signs are subject to sign restrictions. Some signs are subject to permits from the property owner, Planning Board, and/or Building Inspector. Enforcement of this Section shall not infringe upon protected noncommercial speech and a property owner's right to freedom of speech. It is the intent of this Zoning By-Law to achieve consistency to address public convenience and safety and not to extend nonconforming uses.

5.1.2 Sign Standards. The following standards shall apply:

1. Exterior sign illumination shall be shielded and directed solely at the sign.
2. No sign shall use moving parts or noise making devices. No sign shall be internally lit or use blinking, rotating or flashing devices, or red lights or lights changing in intensity.
3. No sign shall be a roof sign.
4. No sign or light shall be placed within road limits or so as to constitute a hazard to pedestrian or vehicle traffic. 5. A freestanding temporary or permanent sign may not be placed more than sixteen (16) feet above grade or be closer to the front or side property line than twenty (20) feet, except with a Special Permit from the Planning Board where the Board finds that the requirements of the particular location dictate greater height or smaller setback.

8. A subdivision sign not exceeding six (6) square feet may be placed at each curb cut to the entrance to the subdivision and must identify premises; if freestanding, it must comply with Subsection 5.1.4. Signs advertising subdivision real estate for sale must comply with Subsection 5.1.4 and be placed so as not to obstruct subdivision identification signs.
9. No sign shall be placed so as to obstruct other signs.
10. No sign shall be located off the premises to which it applies, except that directional, informational, or identification signs may be allowed by Special Permit by the Planning Board where such signs will serve the public convenience and not be detrimental to the neighborhood with respect to size, location or design. Individual off-premise signs shall

be unlit and shall not be over four (4) square feet in area.

11. Where appropriate and subject to design review, off-premise signs shall be grouped together at strategic locations and may be externally lit. Grouped off premise signs shall not exceed sixteen (16) square feet.

12. Every sign shall be maintained in good condition. Any sign that suffers damage or deterioration or which has been abandoned and which creates a risk of harm to persons or property shall be repaired or removed.
