Town of Becket Housing Rehab Project
CDBG# CDF-1-2017-Becket-00023
Becket, MA 01223
Project Activities
1) Project Location
2) Project Description/Activities
3) Project Location Map
Project Location: Town of Becket, MA 01223

Project Description/Activities:

The Becket Housing Rehabilitation Program provides home improvement assistance for low- and moderate-income homeowners and homeowner-occupants who have low- and moderate-income tenants. The majority of the funds will be directed to a housing rehabilitation project, which will rehabilitate at least 15 housing units. The goals of the program are to:  Encourage the viability of existing housing stock through rehabilitation rather than construction of new housing; Provide incentives for homeowners and landlords to upgrade their homes/apartments to minimum living standards or better; provide safe and sanitary dwelling units through the elimination of code violations; prevent blight and deterioration; and eliminate fire and safety hazards.
Designation of Certifying Officer
1) Designation of Certifying Officer
8 February 2017

Patricia Mullins  
Community Development Program Manager  
Berkshire Regional Planning Commission  
1 Fenn Street, Suite 201  
Pittsfield, MA 01201

RE: DESIGNATION OF THE ENVIRONMENTAL CERTIFYING OFFICER

Dear Ms. Mullins:

In my capacity as Chairman of the Board of Selectmen for the Town of Becket, Massachusetts, and in accordance with the Board of Selectmen’s vote that occurred at tonight’s meeting, I hereby designate Edward J. Gibson, Town Administrator, as the Environmental Certifying Officer for the FY2017 Massachusetts Community Development Block Grant Program.

Sincerely,

BOARD OF SELECTMEN

3) Environmental Review Record Determination
ENVIRONMENTAL REVIEW FINDINGS

It is the finding of the Town of Becket, Massachusetts that the following activities proposed in its Massachusetts Community Development Block Grant application for FY 2017 consist of those which are categorically excluded from the environmental review requirements of NEPA pursuant to 24 CFR Part 58.35 and subject to 58.5, and that these activities comply with the environmental requirements of related federal authorities.

Authority: 24 CFR 58.35 (a)(3)(i)

Rehabilitation of buildings and improvements when the following condition is met:
In the case of a building for residential use (with one to four units), the density is not increased beyond four units, and the land use is not changed.

The CDBG project activities determined to be categorically excluded under 58.35 are:

1) Housing rehabilitation program to serve low- to moderate-income owner-occupants in Becket.

Compliance with the environmental requirements of other related federal activities is indicated on the Environmental Review Statutory Checklist.

It is the finding of the Town of Becket, Massachusetts that the following activity proposed in its Massachusetts Community Development Block Grant application for FY 2017 are exempt from environmental review requirements of NEPA and the environmental review requirements of related federal authorities because the activities are defined as exempt in 24 CFR 58.34:

Administrative activities eligible under 24 CFR 570.206

The CDBG project activities determined to be exempt under 58.34 are:

1. General Administrative Activities.

Signed:

ENVIRONMENTAL REVIEW STATEMENT

TO: Environmental Review Record (ERR)
Project No. DHCD CDBG CDF 1-2017-Becket-00790

SUBJECT: Status Determination
(24 CFR Part 58)

The following activity has been reviewed under Section 58.35(a)(3) and have been found to be categorically excluded from the environmental review requirements of the National Environmental Policy Act pursuant to 24 CFR Part 58.35. The activities are subject to compliance with other applicable Federal environmental laws and authorities cited in Section 58.5. Compliance with any applicable provisions of Section 58.6 is required.

Activities are related to the following Rehabilitation Packet:

Becket Housing Rehabilitation Program

Proposed projects may occur within a floodplain; a case-by-case review will occur prior to rehab to determine if project is in a floodplain as depicted in FEMA Flood Rate Insurance Map and appropriate action will be taken pursuant to 24 CFR 58.6.

Becket is not coastal community; see MA Office of Coastal Zone Management.

No commercial or military airports near target areas.

Projects will not involve work outside the existing footprint and will incur no impact on water quality.

Solid waste resulting from housing rehabilitation project will be disposed of through private waste haulers.

Project activities limited to developed areas. No impact on fish and wildlife.

### Federal Requirements (to be added by Responsible Entity)

- **MA Wetlands Protection Act**: Project activities are consistent with local zoning regulations, bylaws and policies.
- **MA Hazardous Waste Management Act**: Case-by-case review required to determine if disposal of hazardous materials (asbestos, lead, etc) is needed.
- **MA State Building Code**: Building permit required for project work; Towns' Building Inspectors review work for code compliance.
- **Becket Zoning Bylaws**: Individual project work is typically limited to existing structure; no change is anticipated to building footprint.

Sole Source Aquifer Program

The Safe Drinking Water Act gives EPA the authority to designate aquifers which are the sole or principal drinking water source for an area, and which, if contaminated, would create a significant hazard to public health. After a Sole Source Aquifer is designated, no commitment for federal financial assistance may be provided for any project which the EPA determines may contaminate the aquifer through its recharge area so as to create a significant hazard to public health. An additional benefit of designating an area as a Sole Source Aquifer is the increased public awareness of the nature and value of local ground water resources. Local residents and businesses may be more willing to protect an aquifer through local action if they learn their drinking water originates from a vulnerable underground supply.

The EPA defines a Sole Source Aquifer as one which supplies at least 50% of the drinking water consumed in the area overlying the aquifer. EPA guidelines also require that these areas have no alternative drinking water sources(s) which could physically, legally, and economically supply water to all who depend on the aquifer for drinking water.

As of August 2008, a total of 16 Sole Source Aquifers (one aquifer crosses two states) have been designated by the EPA Region 1, New England Office. There are no potential designations pending at this time:

**Massachusetts:**
- Broad Brook Basin of the Barnes Aquifer
- Cape Cod
- Head of the Necocsett
- Martha's Vineyard
- Nantucket
- Plymouth
- Cape Ann

**Connecticut:**
- Pawcatuck River
- Pequotsepos

**Rhode Island:**
- Block Island
- Conanicut Island
- Hunt-Annaquashic-Petpequamsout
- Pawcatuck River

**Maine:**
- Islesboro Island Aquifer System
- Monhegan Island
- North Haven Island
- Vinalhaven Island

**Vermont:**
- None designated

**New Hampshire:**
- None designated

View individual aquifers by clicking the aquifer name.
Any individual, corporation, company, association, partnership, state, municipality or federal agency may apply to have a Sole Source Aquifer designated. In 1987, EPA published the Sole Source Aquifer Designation Petitioner Guidance to assist those interested in preparing and submitting petitions to EPA regional offices. View the petitioners guidance online and learn about national efforts to protect Sole Source Aquifers.

Once designated, proposed federal financially-assisted projects which have the potential to contaminate the aquifer are subject to EPA review. Proposed projects that are funded entirely by state, local, or private sources are not subject to EPA review through the program. Examples of federally funded projects which have been reviewed by EPA in New England include:

- highway improvements and new road construction
- airport improvements
- transportation safety and maintenance facilities
- new construction of rail lines
- large wastewater treatment facilities
- projects funded through Community Development Block Grants
- large residential developments funded through the Rural Utilities Service
- water system improvements

EPA has developed Memorandum of Understandings with other federal agencies which specify review responsibilities under the Sole Source Aquifer program. Many projects referred to EPA for review meet all federal, state and local ground water protection standards and are approved without any modification. If projects are determined to pose a significant risk of contamination, EPA may make specific recommendations or require modifications as a condition of federal funding. Federal funding can be denied if a project will pose a significant threat of contamination to a Sole Source Aquifer and an applicant is unwilling to make necessary project modifications to reduce its risk of contamination.

IPaC resource list

This report is an automatically generated list of species and other resources such as critical habitat (collectively referred to as trust resources) under the U.S. Fish and Wildlife Service’s (USFWS) jurisdiction that are known or expected to be on or near the project area referenced below. The list may also include trust resources that occur outside of the project area, but that could potentially be directly or indirectly affected by activities in the project area. However, determining the likelihood and extent of effects a project may have on trust resources typically requires gathering additional site-specific (e.g., vegetation/species surveys) and project-specific (e.g., magnitude and timing of proposed activities) information.

Below is a summary of the project information you provided and contact information for the USFWS office(s) with jurisdiction in the defined project area. Please read the introduction to each section that follows (Endangered Species, Migratory Birds, USFWS Facilities, and NWI Wetlands) for additional information applicable to the trust resources addressed in that section.

Location
Berkshire, Hampden and Hampshire counties, Massachusetts

Local office
New England Ecological Services Field Office

(603) 223-2541
(603) 223-0104

70 Commercial Street, Suite 300
Concord, NH 03301-5094

http://www.fws.gov/newengland
Endangered species

This resource list is for informational purposes only and does not constitute an analysis of project level impacts.

The primary information used to generate this list is the known or expected range of each species. Additional areas of influence (AOI) for species are also considered. An AOI includes areas outside of the species range if the species could be indirectly affected by activities in that area (e.g., placing a dam upstream of a fish population, even if that fish does not occur at the dam site, may indirectly impact the species by reducing or eliminating water flow downstream). Because species can move, and site conditions can change, the species on this list are not guaranteed to be found on or near the project area. To fully determine any potential effects to species, additional site-specific and project-specific information is often required.

Section 7 of the Endangered Species Act requires Federal agencies to "request of the Secretary information whether any species which is listed or proposed to be listed may be present in the area of such proposed action" for any project that is conducted, permitted, funded, or licensed by any Federal agency. A letter from the local office and a species list which fulfills this requirement can only be obtained by requesting an official species list from either the Regulatory Review section in IPaC (see directions below) or from the local field office directly.

For project evaluations that require USFWS concurrence/review, please return to the IPaC website and request an official species list by doing the following:

1. Draw the project location and click CONTINUE.
2. Click DEFINE PROJECT.
3. Log in (if directed to do so).
4. Provide a name and description for your project.
5. Click REQUEST SPECIES LIST.

Listed species are managed by the Ecological Services Program of the U.S. Fish and Wildlife Service.

1. Species listed under the Endangered Species Act are threatened or endangered; IPaC also shows species that are candidates, or proposed, for listing. See the listing status page for more information.

The following species are potentially affected by activities in this location:

**Mammals**

<table>

</table>

No critical habitat has been designated for this species.

[https://ecos.fws.gov/ecp/species/9045](https://ecos.fws.gov/ecp/species/9045)
Critical habitats
Potential effects to critical habitat(s) in this location must be analyzed along with the endangered species themselves.

THERE ARE NO CRITICAL HABITATS AT THIS LOCATION.

Migratory birds
Certain birds are protected under the Migratory Bird Treaty Act and the Bald and Golden Eagle Protection Act.
Any activity that results in the take (to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct) of migratory birds or eagles is prohibited unless authorized by the U.S. Fish and Wildlife Service.

There are no provisions for allowing the take of migratory birds that are unintentionally killed or injured. Any person or organization who plans or conducts activities that may result in the take of migratory birds is responsible for complying with the appropriate regulations and implementing appropriate conservation measures, as described below.

2. The Bald and Golden Eagle Protection Act of 1940.
3. 50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)

Additional information can be found using the following links:

- Nationwide conservation measures for birds

MIGRATORY BIRD INFORMATION IS NOT AVAILABLE AT THIS TIME

Tell me more about conservation measures I can implement to avoid or minimize impacts to migratory birds.
Nationwide Conservation Measures describes measures that can help avoid and minimize impacts to all birds at any location year round. Such measures are particularly important when birds are most likely to occur in the project area. To see when birds are most likely to occur in your project area, view the Probability of Presence Summary. Special attention should be made to look for nests and avoid nest destruction during the breeding season. The best information about when birds are breeding can be found in Birds of North America (BNA) Online under the
Wild and Scenic Rivers

Federal Wild and Scenic Rivers

The Wild and Scenic Rivers Act established a national system to identify outstanding values and protect the free-flowing condition of rivers. According to Park Service personnel “protection of these outstanding rivers designated as Wild and Scenic can only occur with commitment from state and local partners.”

In Massachusetts, the Riverways Program has provided leadership in all three of our national designated rivers: the Westfield River, Sudbury/Assabet/Concord Rivers, and the Taunton River. Riverways staff, representing the Commonwealth on the Wild & Scenic Committees, participate with municipalities, environmental organizations, the National Park Service and other state and federal agencies on issues relating to National Wild and Scenic Studies and designated rivers.

List of airports in Massachusetts

From Wikipedia, the free encyclopedia

This is a list of airports in Massachusetts (a U.S. state), grouped by type and sorted by location. It contains all public-use and military airports in the state. Some private-use and former airports may be included where notable, such as airports that were previously public-use, those with commercial enplanements recorded by the FAA or airports assigned an IATA airport code.

As of 2009, there were 37 public-use airports, 184 private landing areas, and 2 seaplane bases in Massachusetts.[1] 24 of the public-use airports are government owned, either by municipalities or the Massachusetts Port Authority.[2]

Contents

Airports · See also · References

Airports

This list contains the following information:

- **City served** – The city generally associated with the airport, as per the airport's master record with the Federal Aviation Administration. This is not always the actual location since some airports are located in smaller towns outside of the city they serve. It is not meant to be a complete list of cities served, which can be found in or added to each airport's Wikipedia article.

- **FAA** – The location identifier assigned by the Federal Aviation Administration (FAA).

- **IATA** – The airport code assigned by the International Air Transport Association (IATA). Those that do not match the FAA code are shown in bold.

- **ICAO** – The location indicator assigned by the International Civil Aviation Organization (ICAO).

- **Airport name** – The official airport name. Those shown in bold indicate the airport has scheduled passenger service on commercial airlines.

- **Role** – One of four FAA airport categories, as per the 2011–2015 National Plan of Integrated Airport Systems (NPIAS) report released October 2010:
  - **P-s**: Commercial service – primary are publicly owned airports that receive scheduled passenger service and have more than 10,000 passenger boardings (enplanements) each year. Each primary airport is sub-classified by the FAA as one of the following four "hub" types (3):
    - **L**: Large hub that accounts for at least 1% of total U.S. passenger enplanements.
    - **M**: Medium hub that accounts for between 0.25% and 1% of total U.S. passenger enplanements.
    - **S**: Small hub that accounts for between 0.05% and 0.25% of total U.S. passenger enplanements.
    - **N**: Nonhub that accounts for less than 0.05% of total U.S. passenger enplanements, but more than 10,000 annual enplanements.
  - **CS**: Commercial service – nonprimary are publicly owned airports that receive scheduled passenger service and have at least 2,500 passenger boardings each year.
  - **R**: Reliever airports are designated by the FAA to relieve congestion at a large commercial service airport and to provide more general aviation access to the overall community.
  - **GA**: General aviation airports are the largest single group of airports in the U.S. airport system.

- **Enpl.** – The number of enplanements (commercial passenger boardings) that occurred at the airport in calendar year 2014, as per FAA records released June 2015.

Footnotes:

1. Westover Metropolitan Airport is listed as a commercial service – primary airport in the 2011–2015 NPIAS (based on 15,771 enplanements in 2008). It has not had scheduled commercial airline passenger service since June 2008.

Ms. Brona Simon
State Historic Preservation Officer
Massachusetts Historical Commission
220 Morrissey Boulevard, Boston, MA 02125

Reference: Town of Becket, MA
FY 2017 Community Development Block Grant Environmental Review

Dear Ms. Simon:

As the Grant Administrator for the FY17 Becket CDBG grant, I am writing to request NHPA Section 106 review and formal determination of significance of the following activity for which the FY 2017 Community Development Block Grant (CDBG) funding assistance has been awarded to the Towns of Great Barrington and Sheffield. The grant will fund a regional housing rehabilitation program and two design projects.

Under the Becket Housing Rehabilitation Program, approximately 15 housing units in the Town of Becket will be rehabilitated. The program will address improvements to residential dwellings to provide safe, decent, and sanitary housing for low and moderate-income residents. The Historical Commission will review individual projects in the town to ensure compliance with the National Historic Preservation Act.

For your review, we are including a completed Project Notification Form, signed by the Town Administrator and Environmental Certifying Officer, Edward J. Gibson. Should you have any questions, please contact me at (413) 443-1521 x 17, or Mr. Gibson at (413) 623-8934 x 13.

Thank you for your time and assistance in this review process.

Sincerely,

Patricia Mullins
Berkshire Regional Planning Commission
Grant Administrator

FY 2017 Community Development Block Grant Environmental Review

Dear Ms. Simon:

I am writing to request NHPA Section 106 review and formal determination of significance of the following activities for which the FY 2017 Community Development Block Grant (CDBG) funding assistance has been requested by the Town of Becket.

The majority of the requested funds will be directed to a housing rehabilitation project, which will rehabilitate at least 15 housing units. The program will address improvements to residential dwellings to provide safe, decent, and sanitary housing for low- to moderate-income residents. The local Historical Commission will review individual projects to ensure compliance with the National Historic Preservation Act.

For your review, we are including a completed Project Notification Form. Should you have any questions, please contact me at 413-623-8934, ext. 13. Thank you for your time and assistance in this review process.

Sincerely,

Edward J. Gibson
Becket Town Administrator
Environmental Certifying Officer

**Project Description (narrative):**

The Becket Housing Rehabilitation Program provides home improvement assistance for low- and moderate-income homeowners and homeowner-occupants who have low- and moderate-income tenants. The goals of the program are to:

- Encourage the viability of existing housing stock through rehabilitation rather than construction of new housing;
- Provide incentives for homeowners and landlords to upgrade their homes/apartments to minimum living standards or better; provide safe and sanitary dwelling units through the elimination of code violations; prevent blight and deterioration; and eliminate fire and safety hazards.

**Does the project include demolition? If so, specify nature of demolition and describe the building(s) which are proposed for demolition.** No, the project does not include demolition.

**Does the project include rehabilitation of any existing buildings? If so, specify nature of rehabilitation and describe the building(s) which are proposed for rehabilitation.** Yes, the project includes rehabilitation of existing owner-occupied residential homes in the Town of Becket. The types of work which can be accomplished under the HRP include, but are not limited to: roofing, foundation repair, installation of energy efficient windows and doors, insulation, accessibility improvements, plumbing, electrical repair or replacement, septic, water supply, lead paint removal, exterior paint, etc.

**Does the project include new construction? If so, describe (attach plans and elevations if necessary).** No, the project does not include new construction.
To the best of your knowledge, are any historic or archaeological properties known to exist within the project's area of potential impact? If so, specify. Yes, the Town of Becket covers approximately 47.8 square miles and includes several historic properties; individual projects may occur anywhere within the town. Specific properties within the town will be chosen during the grant implementation period. All properties deemed eligible will be reviewed by the town's Historical Commission for determination.

What is the total acreage of the project area?

- Woodland: N/A acres
- Wetland: N/A acres
- Floodplain: N/A acres
- Open space: N/A acres
- Developed: N/A acres

Productive Resources:

- Agriculture: N/A acres
- Forestry: N/A acres
- Mining/Extraction: N/A acres

Total Project Acreage: N/A acres

What is the acreage of the proposed new construction? 0 acres

What is the present land use of the project area?

The Town of Becket is predominantly residential. Only residential or mixed use properties will be included in the Becket Housing Rehabilitation Program.

Please attach a copy of the section of the USGS quadrangle map which clearly marks the project location. See attached maps.

Public Notices

The premises are to be sold subject to and with the benefit of all easements, restrictions, building and zoning laws, liens, attorney's fees and costs pursuant to M.G.L. Ch. 163A, unpaid taxes, tax titles, water bills, municipal liens and assessments, rights of tenants and parties in possession.

TERMS OF SALE:
A deposit of FIVE THOUSAND DOLLARS AND 00 CENTS ($5,000.00) in the form of a certified check, bank treasurer's check or money order will be required to be delivered at or before the time the bid is offered. The successful bidder will be required to execute a Foreclosure Sale Agreement immediately after the close of the bidding. The balance of the purchase price shall be paid within thirty (30) days from the sale date in the form of a certified check, bank treasurer's check or other check satisfactory to Montgomer's attorney. The mortgagee has the right to bid at the sale to report any and all bids, to continue the sale and to amend the terms of the sale by written or oral announcement made before or during the foreclosure sale. If the sale is set aside for any reason, the purchaser at the sale shall be entitled only to a return of the deposit paid. The purchaser shall have no further recourse against the mortgagee, the mortgagee or the mortgagee's attorney. The description of the premises contained in said mortgage shall control in the event of an error in this publication. TIME WILL BE OF THE ESSENCE.

Other terms if any, to be announced at the sale.

NOTICE OF INTENT TO REQUEST A RELEASE OF FUNDS
Town of Becket, 557 Main Street,
Becket, MA 01223; 413-625-8554
November 10, 2017

On or about Tuesday, November 21st, 2017 the Town of Becket will submit a request to the Commonwealth of Massachusetts to release Community Development Block Grant (CDBG) funds under Title I of the Housing and Community Development Act of 1974 (PL 92-387), as amended, to undertake the following projects in the Town of Becket, totaling $773,800.00: The Town of Becket CDBG Housing Rehabilitation Program.

Activities proposed are exempt or categorically excluded under HUD regulations at 24 CFR Part 51 found in the National Environmental Policy Act (NEPA) requirements. An Environmental Review Record (EIR)
that documents the environmental determinations for this project is on file at the Becket Town Hall at 557 Main Street, Becket, MA 01223, and is available for public examination and copying, upon request, Monday through Friday, from 8:30AM to 4:30PM.

PUBLIC COMMENTS: Any individual, group, or agency may submit written comments on the ERP to Edward J. Gibson, CDBG Environmental Certifying Officer, Town of Becket, 557 Main Street, Becket, MA 01223. All comments received by 4:30 PM on November 20, 2017 will be considered by the Town prior to authorizing submittal of a request for release of funds.

ENVIRONMENTAL CERTIFICATION: The Town of Becket certifies to the Commonwealth of Massachusetts that Edward J. Gibson, in his capacity as Town Administrator and CDBG Environmental Certifying Officer, accepts the jurisdiction of the Federal Courts in any action to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. The Commonwealth’s approval of the certification satisfies its responsibilities under NEPA and related laws and authorities and allows the Town of Becket to use Program funds.

OBJECTIONS TO RELEASE OF FUNDS: The Commonwealth of Massachusetts will accept objections to the Town of Becket’s Request for Release of Funds and Environmental Certification for a period of fifteen days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases: (a) the certification was not accompanied by the Certifying Officer of the Town of Becket; (b) the Town of Becket has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR part 57 or by CDBG regulations at 40 CFR 1500-1508, as applicable; (c) the Town of Becket has omitted one or more steps in the preparation, completion or publication of the Environmental Assessment or Environmental Impact Study per 24 CFR Subparts E, F or G of Part 58, as applicable; (d) the grant recipient or other participant in the development process has committed funds for or undertaken activities not authorized by 24 CFR Part 58 before release of funds and approval of the environmental certification; (e) another Federal, State or local agency has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted in accordance with the required procedures (14 CFR Part 58, Sec. 58.76) and shall be addressed to Massachusetts Community Development Block Grant, Department of Housing and Community Development, 150 Cambridge Street, Suite 300, Boston, MA 02114. Potential objectors should contact DMO to verify the actual last day of the objection period.

Edward J. Gibson
Town Administrator / CDBG
Environmental Certifying Officer
11/13/17 in The Berkshire Eagle
Request for Release of Funds and Certification

This form is to be used by Responsible Entities and Recipients (as defined in 24 CFR 58.2) when requesting the release of funds, and requesting the authority to use such funds, for HUD programs identified by statutes that provide for the assumption of the environmental review responsibility by units of general local government and States. Public reporting burden for this collection of information is estimated to average 36 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number.

### Part 1. Program Description and Request for Release of Funds (to be completed by Responsible Entity)

11. Program Activity/Project Description

The Becket Housing Rehabilitation Program provides home improvement assistance for low- and moderate-income homeowners and homeowner-occupants who have low- and moderate-income tenants. The goals of the program are to: Encourage the viability of existing housing stock through rehabilitation rather than construction of new housing; Provide incentives for homeowners and landlords to upgrade their homes/apartments to minimum living standards or better; provide safe and sanitary dwelling units through the elimination of code violations; prevent blight and deterioration; and eliminate fire and safety hazards.

The majority of the requested funds will be directed to a housing rehabilitation project, which will rehabilitate at least 15 housing units. The program will address improvements to residential dwellings to provide safe, decent, and sanitary housing for low- to moderate-income residents.
Part 2. Environmental Certification (to be completed by responsible entity)

With reference to the above Program Activity(ies)/Project(s), I, the undersigned officer of the responsible entity, certify that:

1. The responsible entity has fully carried out its responsibilities for environmental review, decision-making and action pertaining to the project(s) named above.

2. The responsible entity has assumed responsibility for and complied with and will continue to comply with, the National Environmental Policy Act of 1969, as amended, and the environmental procedures, permit requirements and statutory obligations of the laws cited in 24 CFR 58.5; and also agrees to comply with the authorities in 24 CFR 58.6 and applicable State and local laws.

3. The responsible entity has assumed responsibility for and complied with and will continue to comply with Section 106 of the National Historic Preservation Act, and its implementing regulations 36 CFR 800, including consultation with the State Historic Preservation Officer, Indian tribes and Native Hawaiian organizations, and the public.

4. After considering the type and degree of environmental effects identified by the environmental review completed for the proposed project described in Part 1 of this request, I have found that the proposal did [ ] did not [x] require the preparation and dissemination of an environmental impact statement.

5. The responsible entity has disseminated and/or published in the manner prescribed by 24 CFR 58.43 and 58.55 a notice to the public in accordance with 24 CFR 58.70 and as evidenced by the attached copy (copies) or evidence of posting and mailing procedure.

6. The dates for all statutory and regulatory time periods for review, comment or other action are in compliance with procedures and requirements of 24 CFR Part 58.

7. In accordance with 24 CFR 58.71(b), the responsible entity will advise the recipient (if different from the responsible entity) of any special environmental conditions that must be adhered to in carrying out the project.

As the duly designated certifying official of the responsible entity, I also certify that:

8. I am authorized to and do consent to assume the status of Federal official under the National Environmental Policy Act of 1969 and each provision of law designated in the 24 CFR 58.5 list of NEPA-related authorities insofar as the provisions of these laws apply to the HUD responsibilities for environmental review, decision-making and action that have been assumed by the responsible entity.

9. I am authorized to and do accept, on behalf of the recipient personally, the jurisdiction of the Federal courts for the enforcement of all these responsibilities, in my capacity as certifying officer of the responsible entity.

Part 3. To be completed when the Recipient is not the Responsible Entity

The recipient requests the release of funds for the programs and activities identified in Part 1 and agrees to abide by the special conditions, procedures and requirements of the environmental review and to advise the responsible entity of any proposed change in the scope of the project or any change in environmental conditions in accordance with 24 CFR 58.71(b).
