

Proposed Wind Turbine Information Session

The Becket Energy Committee will conduct a public meeting regarding its plan for a small commercial-scale wind turbine project sited at, and to generate power for, the Becket Town Hall.

Saturday, April 27th, 2024

10am

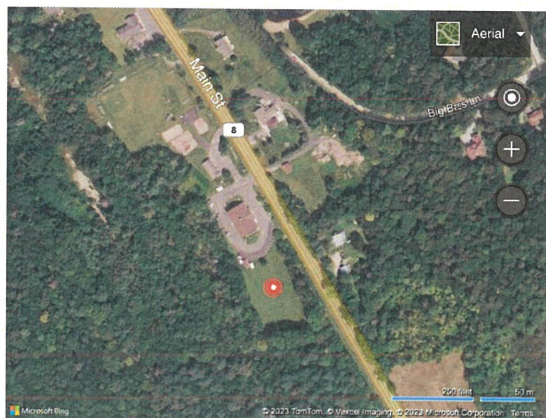

Becket Town Hall

The proposed turbine will offset the Town Hall's electricity demand with clean, carbon-free electricity. The Energy Committee will present the full scope of the project at this meeting.

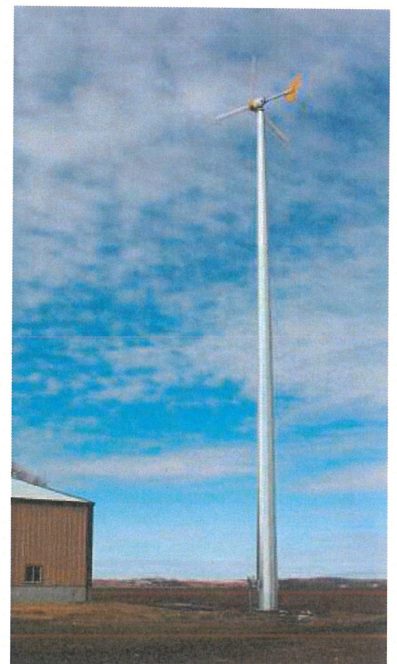

Proposed site looking North

**Zoom participation
available (see Town web
site for details)**

Proposed location to Town Hall
