

Age Friendly Berkshires (AFB) cordially invites you to a virtual *Community Conversation* on **Isolation & Loneliness in Berkshire County**, on **Thursday, May 28, 2020 from 10:00-12:00 via Zoom**.

Your participation in this special event, co-sponsored by AFB and AARP Massachusetts, is an opportunity to inform and collaborate with a statewide working group, convened to find a set of workable solutions to the separate-but-related problems of loneliness and social isolation, that affects people of all ages.

The current Covid-19 shutdown has brought these issues into sharper focus -- so now is the time to capture what we're learning and turn insights and suggestions into *Actions* we can take here at home, both immediately and in the longer-term, to strengthen the Berkshire community web of connection, safety, friendship and support for our people.

Please join us on the 28th. If you cannot attend, feel free to send a surrogate from your organization or community. Thank you very much -- we look forward to seeing you (in person!) soon. Meanwhile, please follow this link to the ***Berkshire Community Conversation Registration and Agenda***: <https://aarp.cvent.com/CCBerkshires>.
